LUXER

Polishing Protective Color Enhancer For Marble & Granite

Description

LUXER is a solvent based polishing water repellent aimed to protect marble, granite and natural stone from water and dirt penetration, frost damage and to stop calcareous efflorescence. LUXER offers an high degree of penetration and color enhancing.

Application

Apply a proper quantity of LUXER on the clean surface by means of cotton cloth, brush or low pressure sprayer. 15 - 30 minutes later, remove any excess of products by using a cloth. On the most absorbing stones repeat the application.

Maintenance

For regular maintenance clean the surface with NEUGEL or a neutral pH cleaner.

Caution

Flammable product. Provide adequate ventilation when used in confined space. Avoid sources of heat and flame. Protect eyes and skin from contact. Do not ingest.

Fortuitous Leakage And Waste Disposal Method

In case material of released or spilled, clean up the most of the product. Absorb all residues with sand sawdust etc. Store the residue in metal tank and call for a specialized company.
